# Atlanta Design-Build Delivery Education Session

*With Special Focus on Legal and Procurement Topics*

## Water and Wastewater Infrastructure Projects

### Who Should Attend

This one-day inclusive education and training session for city and county officials; managers and staff of municipal, private, and governmental organizations; and private industry will provide essential knowledge needed to plan for, procure and manage design-build for water and wastewater infrastructure projects.

### Session topics

- Legal and Other Topics in Deciding to Implement a Collaborative-Delivery Project
- Principles and Best Practices of Collaborative Delivery
- Risk Management and Contracts
- Conducting the Procurement Process
- Managing and Implementing Collaborative-Delivery Projects
- Getting to Project Completion and Transition

Attendees participate in experiential exercises to apply lessons learned to real life projects.

### Program Materials

- Participants each receive (and use during the session) a copy of the *Water and Wastewater Design-Build Handbook, 5th Edition*, and additional handout materials.
- A pre-session questionnaire is used to guide the session and achieve participant learning objectives.
- A CEU certificate is issued to attendees who complete a short 10-question multiple-choice test.

Session Instructors: Experienced practitioners provide first-hand knowledge of effectively accomplishing design-build water infrastructure projects.

Registration Fee: \$75.00 (includes morning refreshments and lunch)

### Hosted by

CITY OF ATLANTA DEPARTMENT OF  
**watershed  
management**
